TARIFF TO CUT DUTIES.

Washington, March 9.—A cut of one-half in the duty on lumber and lumber manufactures is one of the items in the tariff bill to be presented for the use of the committee and it is probable that other drafts of the measure will be introduced before it is submitted to the majority members of the committee, and then to the House. Great care to guard the contents of the bill from premature publication is being taken.

Another change that has been made according to information from reliable sources is that duties have been placed on the free list. There has been much contention over the duties of these two articles, it was said.

The same authority states that there will be a substantial reduction in the duty on steel rods, tools and other steel products.

A duty of 4 cents a pound on coffee is levied. This is by way of compromise with the Porto Ricans who demanded a tax of 6 cents a pound.

A matter still perplexing the committee is that of placing a tax on inheritances. President Taft wants it and indications are that the committee will yield to the President's wishes.

There is some talk also of reviving the war tax on telegrams, bank checks, playing cards and all stocks bought and sold. It is reported this is incorporated in the act to be reported to the house on March 15.

HEAVEN'S FIRST LAW

The Rev. Dr. Frank Crane tells of a bride who refused to answer the question, "Will you love, honor and obey?" Her friends interceded, but it was no use. Finally the intended bridegroom gathered up his hat and started for the door. Instantly she sprang after him, and, leading him back, looked up meekly and said, "I will."

—From Success Magazine.

Mind reading is a wonderful gift but it is probably best that so few people are endowed with this faculty.

OLD AGE PENSION

Former Senator Hinds to Present Proposition to Congress

Boston, Mass., March 9.—In connection with a movement to establish an old age pension system, former United States Senator G. W. Hinds, of Mississippi, was in the city today.

Mr. Hinds has embodied his views in a bill, which, together with a strong petition bearing the names of citizens in all parts of the country, he proposes to present to the coming extra-ordinary session of Congress. The bill provides for the creation of an old age pension commission 'to be composed of five persons to be appointed by the President of the United States with the advice and consent of the Senate.

This commission would be instructed to make a complete investigation of the conditions of all persons over the age of sixty years in the United States and report to Congress.

MANTO DOING BUSINESS

The Steamer "Manto," running from Panama City to Pensacola and New Orleans in connection with the St. Andrews Bay route is doing a good business. The steamer came in yesterday evening into Panama City, with nine earloads for Dothan and points along the line.

Business over this new freight line is picking up and increasing on every trip. The reason is that they are hauling and delivering freights from seaport cities to Dothan for less money than the other lines coming in here.

The business men of Dothan are quick to see a saving and the Manto is going to get business so long as she does the work for less money.

Unless the other roads coming here meet the new road's rates that road will be doing the major part of the business of this town pretty soon.

INCREASING TAXES

President Taft evidently doesn't believe that congress is going to be economical but that it will continue to spend more than the probable income.

In his annual address he suggests a new tax that on inheritance. If we are to have more money to spend but no more income we will be met with a money that I inherit than any other in the world. Inheritance money is a curse and to give up a small part of it is no hardship. All the money in the world is in the hands of a few. It makes all heirs have a claim with the officials of the national government.

Probably the only way of increasing the income of the country is to put the expenses within the income. In the face of a great debt congress gave public money for an investigation of the affairs of the republic of Liberia. We have nothing more to do with Liberia than we have with Sabana. It is about certain that our government will undertake to finance that decaying republic. That really belongs to England and right now England gets its trade and goods as we rush in to pay its expenses. We are to have another expensive account added on us.

This is but one little reason why the government is going to increase taxes. It needs our money to give to other people. That is our policy. —Barnum Ham Ledger.

J. M. Smith of Andalusia was here today for a while on his way home from London.

SUPPLIED

Passenger Agent — Here are some postcard views along our line of railroad. Would you like them?

Patron—No, thank you. I rode over the line one day last week and have views of my own on it. —Chicago News.

SPRINGTIME.

The beautiful day in joyful notes of love
O thou sweet lovely Spring!
Thy handwork is seen
Which tastefully weaves
The tender young joys
To robe the trees in green
Thou too hast brought the roses
Of brightest shades of hue
And violet sweet
To bloom at our feet
Forth with the morning dew
And thou wilt clothe the fields
So naked now and bare
With verdure's silk and lace
Of laughing grace
Which they are wont to wear
So in their waltz and the songsters
Into the shady grove
To whistle away
To come and not forget
The lark on their first taught
When winter has gone
Sweet springtime will dawn
With the robins' breezes fraught
The deeper the snows of winter
The fiercer its stormy blast
The sweeter will sing
In the beautiful spring
When life's long winter has past
H. C. C.

FOILED

The Constable of Now gen't men we've traced these here cloes the footprint of the man to this —the footprints of the horse and the footprints of the man to this stamp from here on that only the footprints of the horse. Now the question is—Wot's become of the man? —Laf.

Sunshine always follows rain. The annoying winds of yesterday and the rains of last night were followed today by lovely spring weather just cool and pleasant enough to make a sick man feel well.

AUTOMOBILE FOR SALE

Ford Runabout in perfect condition at your own price.
C. J. FAULK

SEVERE SNOWSTORM IN IOWA.

Des Moines, Ia., March 9.—All Iowa awoke this morning to find one of the severest snowstorms of the season in progress. Snow began falling in the central portion of the State shortly after midnight, and it continues with severity. Luckily the wind was not as strong while the thermometer was above zero. Trains are moved with some difficulty and street cars are running intermittently.

Snow in Oklahoma

Enid Ok., March 9.—Four inches of snow fell here today. The heaviest in many years. Wheat will be greatly benefited.

Below Zero in Nebraska

Norfolk, Neb., March 9.—At Chadron, Neb., the temperature has fallen to ten below zero and at Gregory S. D., to eight below.

FOR SALE

A very prominent brick corner about 42-105 feet, an ideal location for any business and the cheapest piece of property of any kind in Dothan today. See me and get price, and buy it now.
J. B. DELL

FOR RENT—Six room house on N. College St. modern conveniences. Apply to A. W. Lisenb. Houston National Bank. 113

DOTHAN, ALABAMA, WEDNESDAY EVENING,

MARCH 10TH, 1909

NUMBER 140.

GENEVA COUNTY Supt. OF EDUCATION ABSCONDS

Geneva, March 9.—With a known shortage of \$10,000 in his accounts, J. M. Lammons, County Superintendent of Geneva County has left for parts unknown. His wife and child are with him, having gone to Montgomery on February 20, when Lammons drew upon the State Treasury for \$5,454.86, as his estimated pay roll for the month of February.

It is understood that many of the teachers have not been paid for their services for the month of January, and many of them for the month of February. Lammons on leaving Geneva carried with him, or made away with, all of the receipts, vouchers and checks of his office during his tenure since November 1904. It is therefore almost an impossibility to ascertain with any degree of accuracy the amount which the County Superintendent is short in his account with the state.

Whatever the amount of the shortage, however, the bonding company will repay the State to the extent of \$11,000, the amount of bond which the State Superintendent of Education requires of all county superintendents under the high school laws of the State.

Papers Received Here
Assistant State Examiner of Public Accounts, H. Y. Brooke yesterday evening received a package from a Southern seaport by express, containing all of the papers of the absconding county superintendent of education of Geneva county.

Not a single paper was missing as far as a hasty examination of the contents of the large package could be ascertained.

ENGINEER FRANK ANSLEY HURT IN R. R. WRECK

A dispatch sent out Monday evening from Selma, stated that Mr. Frank Ansley had been seriously injured in a collision of two freight trains on the Southern R. R. between that city and Birmingham, and that Mr. Ansley had a leg cut off in the accident.

Mr. Ansley's mother, Mrs. M. J. Ansley, and his sister Miss Margaret Ansley, a teacher in the City Schools, live in Dothan and were consequently greatly disturbed over the report. Miss Ansley got in communication last night over a long distance phone with a nurse in a Bessemer hospital who had Mr. Ansley under her care. She stated that the report greatly exaggerated the facts. She said, though, that Engineer Ansley had received a bad fracture of a leg but the limb had not been amputated and that the attending physician did not think such an operation necessary.

The friends of the family here will be pleased to learn that Mr. Ansley is not so badly hurt and that his chances for early recovery were very good.

FIVE INCHES OF RAINFALL IN FIVE HOURS.

Montgomery was visited yesterday evening and last night with one of the greatest downpours of rain that has been known to fall at that place for years. The city was flooded. From half past one until seven o'clock p. m., nearly five and a half inches of rain fell. Lands in and around the city were flooded and much damage has been done.

WAS IT MURDER?

Since the autopsy over the body of the strange man who was found last Saturday evening in Beaver Creek some facts have developed showing that the supposed drowned man came to his death from violence.

The postmortem was held this morning at the morgue and it was broken and it so this body was not discovered at the morgue.

Since the burial of the unknown man, several things have come to light that were unknown at the time and the officials have been putting things together that may finally show not only that a murder has been committed but that the identity of the individual may be established.

The sheriff with a physician has gone to the grave where the man was buried last Sunday evening and will have the body disinterred and further examination will be made.

We learn that it has been ascertained that the body was buried in a shallow grave and that it was followed by several others. The officials are giving out nothing but are busy trying to arrive at enough evidence to place the responsibility of the man's death upon the guilty parties. If foul play has been practiced and the officials think this is the case they are determined to follow every clue with the hope of bringing the guilty to trial.

Later Developments

This evening Mr. Bob Carroll who lives up in Beaver Creek near Blue Springs came in to Dothan to look into the findings of the dead man above referred to. Mr. Carroll has a son Jesse, whom he suspected of being the man found in the creek last Sunday.

Mr. Carroll and his son are both trappers by profession and his son was to trap on Beaver Creek while he was to go up into Henry county. They left home nearly two weeks ago. From the clothing taken from the clothing of the drowned man Mr. Carroll is satisfied that the body is that of his son. His description of the deceased fits the case well and there seems now to be but little doubt the identity of the deceased will be fully established when Mr. Carroll views the body which will be taken up this evening by the sheriff.

A MOTHERS MEETING AT ROSE HILL

A mothers meeting will be held at Rose Hill Friday afternoon at 3 o'clock. Every mother who has children in school is urged to attend. All others are welcome.

This meeting is in the interest of parent teacher and child. Do not fail to come. You may regret it if you do.

Respectfully,
J. V. BROWN, Supt.

REV CRAIG RETURNS

Rev. E. M. Craig returned last night after an absence of eight days which he reports were very pleasantly spent in North Georgia visiting Athens, Gainesville, Clarissa, Cornelia, Jefferson and Commerce. At the latter place he delivered several addresses in an Evangelistic Conference.

Mr. Craig has been called to Superintend the Home Mission work of Athens Presbytery which covers fifteen counties in North Georgia but has not given out anything as to what his decision will be.

THE GUN AGAIN.

There will be a carnival of laughter throughout the country for several days and corners and undertakers won't have time to eat their meats.

The government has invested in rifles of a new kind for the army, and the old ones are being sold for next to nothing. No man is so poor that he can't afford to have a murdering weapon, and even the school children by saving up their pennies for a few weeks may be equipped for the war trail. This household will have a gun on the wall or on the floor where the little boys play with it and have their dear little heads blown off.

A 14 year old boy wanted to buy a deadly poison nobody would sell it to him, but a gun is sold to them and no questions asked. The boy goes into a store and finds on a box so that he can see over the counter and shoot the girl to wrap up a shirt and some ammunition right away.

A widow saw a woman at Atchison was washing dishes in the kitchen of her home, when her husband came home and found her lying face down on the floor. It was evident she had been killed while his employer at one minute he was busy with her work, perhaps planning other work, perhaps in no, and the next minute her work was done forever. In the midst of life we are in death so long as boys are permitted to carry guns.

There is a boy in jail at Atchison. He is the most unhappy boy in the United States. He was carrying a Robert rifle in the neighborhood on the day of the woman's death and it was a ball from a rifle that killed her. A hard-nosed reporter who went to the jail to see the boy told him to tea and his tears and misery were so pitiful.

The mother of the woman's husband is a pitiful thing. He is an old man and his home was a happy one and his heart is sore for the touch of a vanished hand and the sound of a voice that is still.

And all this because a boy went out with a gun to have some fun. Similar things are happening all the time. The Gazette has chronicled a score of such killings in Kansas during the past year. Really isn't it time to give this gun-toting business a little serious attention?

Emporia Gazette

Why Foam is White

How white the foam is," said the pretty girl in a voice muffled by the cable stole drawn across her mouth. "Yet the sea is green. Why then isn't the foam green?"

The young sophomore laughed in derision. "You are ignorant," he said. "Sea is brown but it's foam is white too. Shake up black ink and you get white foam. Shake up red ink and the result is the same. A body that reflects all the light it receives without absorbing any is always white. All bodies powdered into tiny diamond form so that they throw back the light from many facets absorb none of it and are white by consequence. Powdered black marble for instance is white. And foam is water powdered into these small diamonds, and hence its whiteness."

SIX PERSONS DEAD; THIRTY INJURED

Cuthbert, Ga. March 9.—The northwestern section of Cuthbert was struck by a cyclone at 8:30 o'clock to night and almost totally destroyed. Many buildings are in ruins and it is difficult to get details as total darkness prevails owing to the damage to the electric light system.

There were about thirty loaded freight cars on the railroad track and they were all destroyed.

The Central of Georgia Railroad is completely tied up.

The property loss will be large, probably \$100,000.

Between seventy-five and one hundred dwellings and business houses were destroyed. Most of the residences being in the negro settlement. Among the business houses destroyed are several brick buildings which were literally demolished including four of the largest mercantile establishments in the town.

Six negroes and probably seven white people and perhaps thirty seriously injured. No whites were killed so far as is known tonight but a half dozen were more or less injured.

WHITES AND NEGROES

Should Be Kept Far Apart

Montgomery, Ala., March 8.—"There should be no admixture of racial stocks," declared President Eliot of Harvard University in an interview.

I believe for example that the Irish should not intermarry with the Americans of English descent; that the Germans should not marry the Italians; that the Jews should not marry the French. Each race should maintain its own individuality. The experience of civilization shows that the racial stocks are never mixed with profit and that such unions do not bring forth the best and strongest children. There is no reason, however, why the races cannot live together side by side in perfect peace and amity.

In the case of the negroes and whites should be kept apart in every respect. The south has a wise policy. I believe that Booker T. Washington has the right ideals and that DuBois is injuring the progress of the race with his views."

DR. ELLIS SLATED TO SUCCEED DICKEY

Citizens of Dothan will be interested in the following news item from the *Atlanta Constitution* of today, for Mr. T. D. Ellis is a brother of Dr. J. L. Ellis, of Dothan.

Macon, Ga., March 8.—Friends of Dr. T. D. Ellis, pastor of the Mulberry Street Methodist church of this city, is slated for the presidency of Emory College at the close of the present collegiate year to succeed Dr. Dickey, the present head of the institution. Dr. Ellis is one of the leading Methodists of the central portion of the state and he has been with his church here since Dr. Ainsworth went to Savannah several years ago.

The rumor has gained considerable credit and developments will be closely watched.

J. W. Grant who recently bought the bankrupt stock of O. P. Green has sold it to Watson Brothers of Birmingham. It is not known yet whether they will move it out of town, or keep it in Dothan.

ELECTRIC LIGHT BULBS STOLEN BY HUNDREDS.

New York, Mar. 9.—Following patient detective work covering a period of nearly two years five men have been placed under arrest charged with having stolen between \$2,000 and \$10,000 worth of incandescent light bulbs from the Edison company.

The detectives making the arrests claim to have unearthed a well organized system of looting the company's store room, in which a former driver for an express company and ex-employee of the Edison are implicated.

The Remnant

Life's old time lilt is gone you say,
With the days that used to be
A sweet scent of lanes of long ago
Where we romped with fancy free,

And the weary years roll on roll on
And hearts are growing old
Ah break away from past regrets
The story's not yet told

New scenes new faces follow fast
As along the road we wend
And we shouldn't sigh All of life is lived
Until we have reached the end
— Paul Cook

The Return

Up from Shadowland
Out of the gloom
Welcome to happiness,
Life and its bloom!

Far from Sorrow's hold
Pain's somber keep
Out from the rain of tears
With a heart leap!

Up from Shadowland—
Grief and despair,
Into the world again,
Smiling and fair!

—Paul Cook

Mrs. R. D. Crawford Entertains
Embroidery Club.

On Wednesday afternoon at 3 o'clock, Mrs. R. D. Crawford entertained delightfully for the Embroidery Club.

Although there were several of the members absent, a most enjoyable afternoon was spent with Mrs. Crawford. Mrs. Walter Watford was the only guest of the club. The refreshments were delightful.

AND ITEMS OF INTEREST TO WOMEN

Mrs. E. M. Craig will entertain The New Century Club on next Tuesday at 8:30. It was agreed at the last meeting that a fine of ten cents would be imposed on all members who were not on time.

The rehearsals for 'Union Depot for a Day' are progressing finely and will be put on one evening of next week date will be given later. The attractions at the Elite this week have made it impossible to give this performance. Friday night as was first announced. It hopes to move to night at the Elite theatre.

FEARED BURIAL ALIVE

Toronto, Ontario, Mar. 10.—The will of Dr. Daniel Young of this city, who died February 17, has been found this particular clause:

'I will that upon my death and before my burial my heart and arteries shall be filled with a composition made of tannin and olive oil heated together or some combination that becomes solid on cooling and used warm enough to fill the heart and arteries as well as possible and then pass from the liquid to the solid stage and a regular physician shall perform the said task or undertaking.

Physicians are of the opinion that Young feared burial alive and knowing that such an operation as he requested would necessitate the opening of the heart believed that this would insure death.

COTTON MILL MAN COMING

Secretary Layfield of the Commercial Club is just in receipt of a letter from a well known cotton manufacturer who says he will be in Dothan in a few days to look over the field with a view of building a new factory.

BRIDEGROOM, AGED 83, WEDS BRIDE OF 21
Los Angeles, March 10.—December and May were wedded yesterday at Santa Monica in the persons of Mrs. Electra Hawkins, 21 years and Vernon Wiscott, 83. Wiscott is an inmate of the soldiers' home at Sawtelle and so is Mrs. Wiscott's father.
For some time the aged veteran had courted the pretty woman he married yesterday.
